

Takayuki Kida, MD

OUR COMPANY

High quality components for Automotive, New Energy, Industrial and Power Supply

Europe Chemi-Con (Deutschland) GmbH, located in Nuremberg, Germany, is the European subsidiary of the Japan-based Nippon Chemi-Con Corp. With the largest fully automated warehouse for Alu-Caps in Europe and 80 highly skilled employees, Europe Chemi-Con has been the exclusive partner for the distribution of Nippon Chemi-Con products for more than three decades.

The Nuremberg facility is ideal in terms of logistics. The seamless cooperation with national and international transport companies and excellent infrastructure – including an airport, inland port and rail freight transport – promote optimal expedition. The result: exceptional customer satisfaction, across the globe.

The Chemi-Con difference, quality, service, flexibility and expertise you can count on. With an extensively trained workforce in Germany, and highly qualified engineers in Japan, our clients are informed and involved, throughout the manufacturing process. We go beyond standardized solutions, to offerings which are customized and logistically advanced, with additional IT solutions, EDI and customized labels, available as needed.

At Europe Chemi-Con (Deutschland) GmbH, we are proud of our customers' continued success, and that's reflected in our continuous sales growth. This is also a direct result of our well-established European distributor network. And there's no end in sight. The continuous development of the electronic and electric field, driven by E-mobility, »Industrie 4.0« etc, will have a positive impact on the Europe Chemi-Con (Deutschland) GmbH business for years to come.

HYBRID-POLYMER-CAPACITORS

Low ESR and high temperature stability, due to new hybrid electrolyte technology.

HIGH-QUALITY

OUR PRODUCTS

SNAP-IN-CAPACITORS

For power supply and inverter applications, available in a variety of different configurations.

INDIVIDUAL

SMD-CAPACITORS

Smart capacitors for fully automated assembling lines and reflow soldering.

VARISTOR/MLCC/FILM CAPACITORS

Other passive non-aluminum components to compliment our product portfolio.

LONG-LIFE

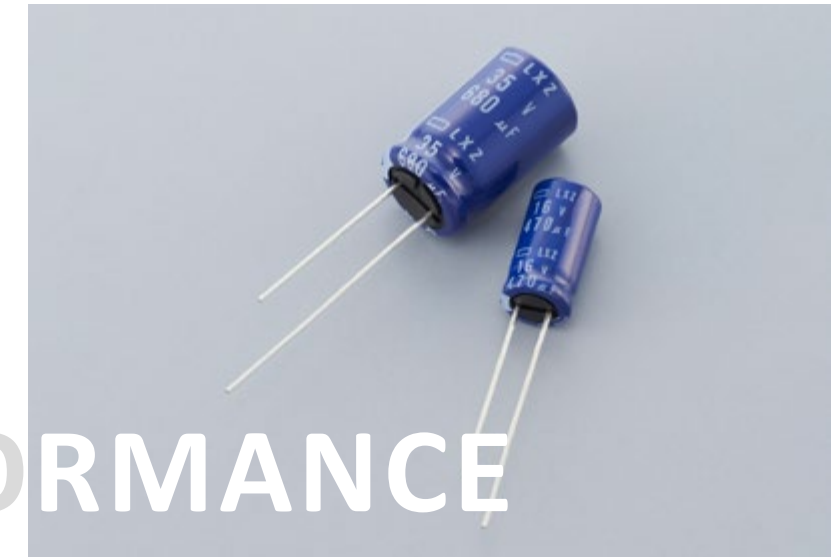

RADIAL-CAPACITORS

Through-hole mounted capacitors have a high energy density and capacitance in relation to size.

POLYMER-CAPACITORS

Super low ESR and extra-long lifetime, due to a solid electrolyte.

HIGH-PERFORMANCE

SCREW-MOUNT-CAPACITORS

For inverter and motor-drive applications with high power requirements.

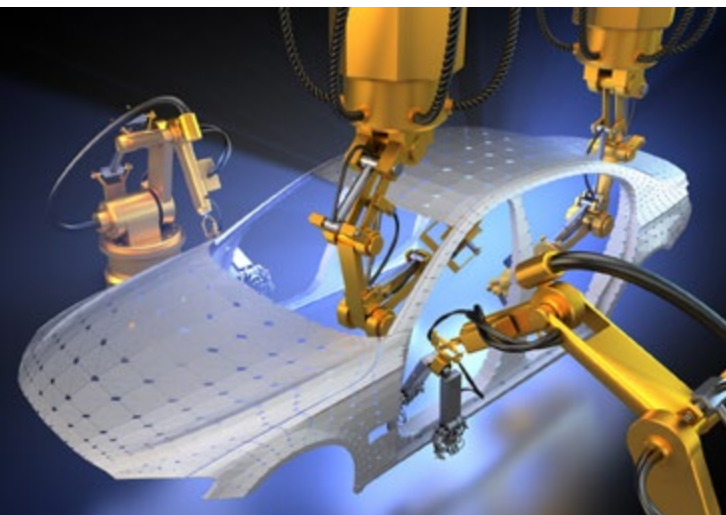

AMORPHOUS CHOKE COILS

Excellent magnetic, mechanical and chemical characteristics thanks to amorphous material.

PRECISION

AUTOMOTIVE

Whether it's for a small-motor control, an electric drive system or an on-board battery charger, we have a solution for every automotive need.

INDUSTRIAL

No matter the industry, we offer radial lead, SMD and Snap-in aluminum electrolytic capacitors for every need and application.

OUR BRANCHES

High quality components for Automotive, New Energy, Industrial and Power Supply

As the European subsidiary of one of the world's most successful and well known Aluminum Electrolytic Capacitors manufacturers, Europe Chemi-Con GmbH remains committed to the industry's future – through tireless and unmatched innovation.

We have our customer's needs in mind throughout the product developments cycle and are dedicated to providing exceptional support, amidst an ever-evolving industry landscape. What's more, our stringent, regulation-compliant environmental policy strives to minimize our – and our customers' – carbon footprint.

NEW ENERGY

Our electric double layer capacitors are far superior to commonly used rechargeable batteries for solar applications – thanks to an excellent charge-discharge cycle life and a low environmental load.

POWER SUPPLY

Power generation and storage applications require powerful technology – and we have the capacitors for the job.
